THE LEGISLATURE.

Special to the Gazette.

MADISON, Jan. 12—A new departure was made by Governor Rusk this morning, in sending his message to each House of the Legislature as an executive communication to be read by the clerk, which was done in the regular order of business. This is eminently proper, and establishes a precedent that it is to be hoped succeeding Governors will follow.

A joint resolution passed both houses allowing them to adjourn until Tuesday next, the Senate taking advantage of it and adjourning till 11 a. m. Tuesday, and the Assembly until 7:30 p. m., Tuesday.

Nothing else of importance was done in either house, except to listen to the Governor's message.

Nearly all the members and employes will leave for their homes this afternoon.

COUNSEL INTERVIEWED.

WASHINGTON, Jan. 11.—District Attorney Corkhill, when asked this morning how the rulings of Judge Cox were replied they were favorable to the prosecution.

It being suggested that some people regarded the rulings as favorable to the defense, the district attorney said: "It must be understood that these rulings are entirely distinct from the charge to the jury. When Judge Cox comes to charge the jury, and applies his rulings to the facts of the case, no one will consider there is anything favorable to the defense."

Colonel Corkhill remarked that the Judge had demonstrated the theory of irresistible impulse.

Scoville says; "The defense is satisfied with the rulings. The spirit of our prayers has been sustained by Judge Cox. If he delivers the charge to the jury on the same basis, we care nothing for the mere words of our instructions. Scoville maintained that Judge Cox had maintained the main points of the defense, and that the question of reasonable doubt was left just as it ought go to the jury.

INGERSOLL.

He Delivers an Eloquent Oration at the Grave of a Little Child.

WASHINGTON, D. C., January 11.—In a remote corner of the Congressional Cemetery yesterday afternoon, a small group of people with uncovered heads were ranged around a newly-opened grave They included Detective and Mrs. George O. Miller and family and friends, who had gathered to witness the burial of the former's bright little son Harry, a recent victim of diphtheria. As the casket rested upon the trestles there was a painful pause, broken only by the mother's sob's until the undertaker advanced toward a stout, florid-complexioned gentleman in the party and whispered to him, the words being inaudible to the lookers-on. This gentleman was Colonel Robert G. Ingersoll, a friend of the Millers, who had attended the funeral at their request. He shook his head when the undertaker first addressed him, and then he said suddenly, "Does Mrs. Miller desire it?"

The undertaker gave the affirmative nod. Mr. Miller looked appealingly toward the distinguished orator, and then Colonel Ingersoll advanced to the the side of the grave; made a motion denoting a desire for silence, and, in a voice of exquisit cadence, delivered one of his characteristic eulogies for the dead. The scene was intensely dramatic. A fine drizzling rain was falling, and ever head was bent and every ear turned to catch the impassioned words of eloquence hope that fell from the lips of the and famed orator.

Colonel Ingersoll was unprotected by either hat or umbrella, and his invocation thrilled his hearers with awe, each eye that had previously been bedimmed with tears brightening and sobs becoming hushed.

THE GIBBONS MURDERERS.

CATLETTSBURG, Ky., Jan. 11.—There was considerable excitement on the return of the murderers of the Gibbons children near Ashland to-day. Three companies of Kentucky State Guards brought the prisoners here from Maysville jail. The grand jury returned bills against George Ellis, William Neal and Ellis Craft. The latter two claim to be innocent and many are inclined to believe Neal.

WISCONSIN STATE GRANGE.

MILWAUKEE, January 11.—The executive committee of the State Grange, John Whitlett, of Russelville; W. H. Cook, of Stockbridge, and S. C. Carr, of Milton Junction, are here preparing for the annual meeting of the grange in this city on the 17th.

THE MILWAUKEE TRAGEDY

MILWAUKEE, January 11.—At the inquest to-day Frederick Jiske testified that he murdered his son Reinhold because the young man was stupidly drunk. He said: "I asked him where he got the whisky. He did not answer; then I hit him with the stick of wood just shown to me. He crawled then into the next room; then I dragged him into the front room and laid him on the floor. I hit him in the front room. The blood on the wall came from that blow."

A GHASTLY PRESENT.

WASHINGTON, January 11.—Among the mail matter received at the Dead Letter Office yesterday was a box containing a miniature coffin, addressed to Charles Guiteau, with the greeting "Happy New Year," on the outside wrapper. Being insufficiently stamped, it was sent to the Dead Letter office, as Guiteau refused to pay the proper postage, saying it might be an infernal machine.

SUICIDED.

GREEN BAY, Jan. 11.—At 7 o'clock this morning Al. Wilmet, a Belgian tailor recently from the old country, suicided, shooting himself through the heart with a double-barreled gun, He was horribly mangled. He put the gun to his breast and pulled the trigger. He leaves a wife and six small children in indigent circumstances. Financial troubles are supposed to have been the cause. The coroner's verdict this afternoon was as above. Wilmet was a well educated, intelligent man.

BELLIGERENT ATTORNEYS.

CHICAGO, Jan. 11.—Gen. Stiles and A. S. Trude had a fight this afternoon in front of Judge Anthony's court-room, precipitated by their recent legal conflict. Trude knocked Stiles down, cutting open his cheek. This followed a personal difficulty O. Bennett, a Tribune reporter, over a question as to how the jury in the Steel-Thompson case had stood.

THE DEADLY ELEVATOR.

RACINE, Jan. 11.—Joseph Kummer, a young boy who ran one of the elevators at the J. I. Case plow factory, was caught between the elevator and one of the floors of the building, about 6 o'clock last night, and crushed to death. The coroner's verdict to-day was in accordance with the facts.

Nearly a Miracle.

E. Asenith Hall, Binghampton, N. Y., writes: "I have suffered for several months with a dull pain through the left, lung and shoulders. I lost my spirits, appetite and color, and could with difficulty keep up all day. My mother procured some BURDOCK BLOOD BITTERS; I took them as directed, and have felt no pain since first week after using them, and am now quite well." Price $1.00, trial size 10 cents.

The Ways of Plants.

In a great many cases leaves are said to sleep; that is to say, at the approach of night they change their position, and sometimes fold themselves up, thus presenting a smaller surface for radiation, and being in consequence less exposed to cold. Mr. Darwin has proved experimentally that leaves which were prevented from moving suffered more from cold than those which were allowed to assume their natural position. He has observed with reference to one plant, *Maranta arundinacea*, the arrow-root, a West Indian species allied to *Canna*, that if the plant has had a severe shock it cannot get to sleep for the next two or three nights.

The sleep of flowers is also probably a case of the same kind, though, as I have elsewhere attempted to show, it has now, I believe, special reference to the visits of insects; those flowers which are fertilized by bees, butterflies, and other day insects, sleep by night, if at all; while those which are dependent on moths rouse themselves toward evening, as already mentioned, and sleep by day. These motions, indeed, have but an indirect reference to our present subject. On the other hand, in the dandelion (*Leontodon*), the flower-stalk is upright while the flower is expanded, a period which lasts for three or four days; it then lowers itself and lies close to the ground for about twelve days, while the fruits are ripening, and then rises again when they are mature. In the *Cyclamen* the stalk curls itself up into a beautiful spire after the flower has faded.

The flower of the little *Linaria* of our walls (*L. cymbalaria*) pushes out into the light and sunshine, but as soon as it is fertilized it turns round and endeavors to find some hole or cranny in which it may remain safely ensconced until the seed is ripe.

In some water-plants the flower expands at the surface, but after it is faded retreats again to the bottom. This is the case for instance, with the water-lilies, some species of the *Patamogeton* (*Trapa natans*). In *Valisneria*, again, the female flowers are borne on long stalks, which reach to the surface of the water, on which the flowers float. The male flowers on the contrary, have short, straight stalks, from which, when mature, the pollen detaches itself, rises to the surface, and, floating freely on it, is wafted about, so that it comes in contact with the female flowers. After fertilization, however, the long stalk coils up spirally, and thus carries the ovary down to the bottom, where the seeds can ripen with great safety.—*Sir John Lubbock, in the Popular Science Monthly.*

THE MESSAGE.

What Governor Rusk Says of State Affairs.

A Document of Facts, Figures, and Suggestions Well Worth Reading.

A New Departure in the Manner of its Delivery.

The following is the first annual message of Governor Rusk which was sent to both houses as an executive document, and there read by the clerks:

To the Senate and Assembly:

Selected by the people of Wisconsin as their chief executive, I have the honor, in obedience to the requirements of the constitution, of submitting to you my first annual message. I am deeply impressed with the responsibilities of the position to which I have been chosen, occupied as it has been by so many distinguished gentlemen, including my immediate predecessor, who has administered the affairs of State with marked ability and to the satisfaction of the people.

The past year has been one of unparalleled prosperity to the nation. United once more in the bonds of peace and harmony, with all sectional strife abated, the country has made gigantic strides ahead. Our nation has been blessed with health, with abundant harvests, and a greater degree of prosperity than in any former year; and had it not been for the shock of the assassination of our lamented President, the year would have been one of the most successful and happy of our national life.

I cannot refrain from speaking in this connection a few words in relation to our late beloved President, James A. Garfield—a man of broad intellect, a noble heart, a kind and generous spirit—he was preeminently a leader among leaders. Succeeding by his own efforts in raising himself from poverty to the highest position in the gift of the people, he had commenced a career which promised to bear full fruition of the hopes of his countrymen, when he was prostrated by the bullet of an assassin. Beloved by the people and mourned by the whole civilized world, his memory will live forever.

The present chief magistrate, President Chester A. Arthur, called to the position under these most sorrowful circumstances, has by his wise administration of governmental affairs, merited the confidence of the country.

Wisconsin has shared in the general prosperity of the year. Our harvests have yielded good returns and our products have found ready markets at good prices.

Agriculture, our greatest industry, has been well rewarded, and the financial condition of this class, who contribute so much to the growth and wealth of our State, has been materially improved. Capital seeks investment at a much reduced rate of interest; our manufacturing industries have steadily and permanently increased, and many other enterprises and resources have been developed during the year.

The laws have been faithfully and efficiently executed, and peace and tranquility have prevailed throughout the State during the year with as few exceptions as is usual.

FINANCIAL.

Without further delay I proceed to a more detailed statement of the condition and affairs of the State.

From the reports of the Secretary of State and State Treasurer, it appears that the balance remaining in the treasury belonging to the several funds at the close of the last fiscal year was $836,300.20.

The receipts and disbursements of the general fund, which embraces all the revenue of the State applicable to the payment of the ordinary expenses of the State government, for the fiscal year ending September 30, 1881, were as follows:

RECEIPTS.

From counties, State tax, etc.	$ 775,148 01
From corporations	531,790 50
From sundry sources	33,493 79
Total receipts	$1,340,432 30

DISBURSEMENTS.

For salaries and permanent appropriations	$ 849,738 60
For legislative expenses	101,210 93
Charitable institutions	456,390 54
For sundry purposes	297,452 58
Total disbursements	$1,195,351 68
Total receipts	1,340,432 30
Balance on hand September 30th, 1880	142,872 70
Balance on hand September 30th, 1881	287,953 32

STATE DEBT.

The distribution of the bonded debt of the State, September 30th, 1881, was as follows:

War bonds outstanding	$ 2,000 00
Certificates of indebtedness	2,250,000 00
Currency certificates	57 00
Total	$2,252,057 00

And in addition to this, there was on the 1st day of January, 1882, a deficiency for the care of the State charitable and penal institutions as shown by the report of the Board of Supervision, of $55,944.82, and a claim of the United States against the State for $206,133.04, making a total of $2,514,134.86.

EXPENDITURES AND REVENUES.

The Secretary of State makes the following estimate of the expenditures to be defrayed from the treasury during the year beginning January 1, 1883:

EXPENDITURES.

Salaries and permanent appropriations	$ 227,730 50
Legislative expenses	95,750 00
Interest on State indebtedness	164,588 36
Charitable and penal institutions	235,000 00
Clerks and employes	62,000 00
Miscellaneous	262,000 00
Total expenditures	$1,047,068 85

REVENUES.

Licenses and fees	$562,700 00
Taxes authorized by law	234,368 83
Total revenues	$797,068 86

This estimate shows that it will be necessary for this Legislature to provide the sum of $250,000, and I would recommend that the amount is reasonable and proper.

CONTINGENT FUND.

The balance to the credit of the Governor's contingent fund on January 1, 1882, was $610.06, and the expenditures from this fund during the year were $1,313.58. In view of the condition of this fund at the present time and the possible demands upon it the present year, I reccommend that the sum of two thousand dollars be appropriated thereto at this session.

CHARITABLE AND PENAL INSTITUTIONS.

At the last session of the Legislature, a law was passed abolishing the several boards having control of the different State institutions, and substituting therefore a single board of five members, designated as the "State Board of Supervision." In conformity to that law, my predecesssor appointed as such board, George W. Burchard, James Bintliff, Charles Luling, Lewis A. Proctor and Charles D. Parker. This board entered upon the discharge of its duties on the 7th day of June, 1881. Its first annual report covers a period from that date to December 1, 1881, by which it appears that the expenses of the institutions have been greatly reduced without impairing the efficiency of the institutions.

The amounts turned over to the Board of Supervision on their assuming control, for the several institutions were as follows:

For State Hospital for Insane	$41,099 71
For Northern Hospital for Insane	45,446 04
For Industrial School for Boys	19 242 88
For Institute for Education of Blind	14,312 76
For Institute for Deaf and Dumb	12,011 24

For detailed information relative to the managemant and financial condition of each of the institutions, you are respectfully referred to the first report of the Board of Supervisions, which will be before you in printed form. From a statement furnished by the president of said board, it is found that a deficit exists in the current expense funds of the several institutions under their control, aggregating $55,944.82, divided among different institutions as follows:

State Hospital for Insane, January 1, 1882	$22,605 52
Northern Hospital for Insane, January 1, 1882	11,953 48
Institute for Deaf and Dumb, March 31, 1882	11,385 82
State Prison, March 31, 1882	10,000 00
Total	$55,944 82

In these items are included the amounts probably necessary to meet demands to the close of the appropriation year, March 31, for the Institute for Deaf and Dumb and State Prison, and to pay for a cargo of coal not yet delivered to the Northern Hospital for Insane. I would recommend that appropriations to cover these deficits be made as early in your session as practicable.

The board makes a detailed statement of their estimates for the current expenses of the several institutions under their charge, for the next year, and which shows that there is to be supplied by appropriation for the several institutions, as follows:

For State Hospital for Insane	$43,019 72
For Northern Hospital for Insane	51,958 83
For Industrial School for Boys	32,987 97
For Institution for Education of Deaf and Dumb	34,600 00
For Institution for Education of Blind	17,850 00
For State Prison	15,000 00

STATE BOARD OF CHARITIES AND REFORM.

The powers of this board now embrace a general supervision over all the charitable, penal and reformatory institutions in Wisconsin, both public and private, except the six State institutions. The legislature of last winter took away from this board their general supervision over the State institutions, and gave them increased work in some other directions, the chief of which is in relation to the care of the chronic insane by counties under chapter 233 of the Laws of 1881. Under this law the board has power to control the treatment by counties of their chronic insane, by regulating the distribution of the State appropriation, and by their power to take the insane away from counties where they are not properly cared for.

The report of the board will contain many details of interest relating to the management of the institutions under their care. The board ask that the general power of visiting and reporting upon the six State institutions be restored to them.

CHRONIC INSANE.

I desire to call your attention to the large increase in the number of incurable insane. These unfortunate beings should command our warmest sympathy, and humanity demands that adequate provision be made for their wants. Our insane asylums have been obliged to return many of this unfortunate class to the counties whence they came to make room for other patients; and the county authorities being unable to suitably provide for them, are obliged to keep them in the poor houses and jails. The subject of at once providing for this class so they can receive proper care and treatment should engage your earliest and most careful attention.

EDUCATION.

I am pleased to be able to say to you that the educational interests of the State are quietly but steadily progressing, and although the percentage of attendance is somewhat less than for the last year, yet the public schools are in a very satisfactory condition. The attendance has not been so large for the past year on account of the unfavorable weather and the prevalancy of contagious diseases in very many localities. The percentage of attendance of children at all the schools of the State for the year 1879 was 66.97; for the year 1880, 69.04; and for the year 1881, 65.2. The number of children of school age in the State in 1880 was 483,229, and in 1881 was 499,142, an increase of 5,913. The total valuation of school property in the State, being the school houses, school house sites, apparatus and libraries, is $5,543,049,61. The total amount expended for school purposes in the State during the year was $2,302,038,34, or 6,97 for each person attending school. The amount expended for each pupil in 1880 was $7,24, and in 1879 was $7.44.

The number of appeals before the superintendent have been less than last year and is a gratfying indication of that humane and friendly spirit of the people which ensures a good government.

The common schools of this state are surpassed by the schools of very few States in the Union, and this good condition is, in a great measure, due to the commendable and able manner in which the superintendents of public instruction and their assistants have for many years performed their arduous and important duties. Every superintendent of public instruction for many years has recommended that the adoption of the township system of school government be made compulsory.

FINES AND PENALTIES.

Section 2 article X of our State constitution provides, among other things, that "the clear proceeds of all fines collected in the several counties for any breach of the penal laws shall be set apart as a separate fund to be called a school fund," and section 715 of the revised statutes prescribes the manner of carrying this constitutional provision into effect.

The county treasurers of many of the larger and more populous counties, for a period of nearly twenty years, had neglected to obey said provision of the constitution and the laws enacted to carry it out. The attorney general during the past year brought suit in the supreme court against one of these delinquent county treasurers to recover the fines collected during the year 1880. That court on the fourth of June last filed its unanimous opinion sustaining the law above cited, and required such treasurer to pay. Since that decision, most of the counties have paid to the State treasurer the fines collected during the year 1880. The amount so paid to January 1, 1882, is $11,583.07, being more than had been collected from the same source for the ten years preceding. It is estimated that there is due from the several counties for the years in which they have neglected to obey the law the sum of $100,000.

Your attention is invited to this subject with a view to ascertain if any legislation is necessary to insure an equitable legal adjustment thereof.

UNINERSITY OF WISCONSIN.

The several reports of the president and secretary of the Board of Regents, and the president of the university show that the institution is in a thriving and commendable condition. It is now an institution of which the State should be proud, made so by a generous donation of lands granted by congress, by occasional aid of the Legislature, by the philanthropic munificence of Governor Washburn, and the provident care and management of the presidents and faculty. The location of the university is more healthful and advantageous than that of any other institution of the kind in the West, and by a liberal and generous policy on the part of the legislature, such as the people of the State would be proud, in after times, to have bestowed, it may be made the most serviceable and distinguished educational institution in the West.

I suggest that you make yourselves familiar with this institution, and know its wants and heed them with such provident liberality, that it will soon advance to that meritorious rank so justly coveted.

EXPERIMENTS IN AMBER CANE.

In accordance with chapter 211 General Laws of 1881, Prof. W. A. Henry has made experiments in Amber cane and the ensilage of fodders, and has made a full and complete report thereof to me. In his report Prof. Henry estimates that syrup can be made at the rate of 180 gallons per acre; and when sugar is worked for, it can be had at the rate of not less than 1,000 pounds per acre of raw sugar, besides 80 gallons of molasses. The analysis of the chemist shows that there is over 2,000 pounds of sugar in an acre of cane, and that half is lost by the present imperfect methods of working. The report of Prof. Henry shows that he has expended $3,080.07 of the appropriation, and that there remains the sum of $919.93 unexpended. The raising of cane is becoming one of the important agricultural products of the State, and in my judgment should be encouraged.; and in view of the satisfactory results reached by the experiments made, and in view of their undoubted benefit to the many producers of cane, I would recommend the continuance of such an appropriation for this purpose as in your wisdom would seem best; and as there is no provision for printing his report, I would recommend that a sufficient appropriation be made for its proper printing and distribution.

STALE HISTORICAL SOCIETY.

The State Historical Society has been ably managen. From a very small beginning, it has grown to be a large institution of peculiar interest to the people of the State. It is regarded as one of the most complete collections of its class in the United States, and is worthy of the fostering care of the State. I would recommend to the Legislature that they provide a suitable building for the use of society, separate from the capitol. Its present quarters are entirely inadequate to its wants, and the rooms it now occupies are needed for the convenience of the Legislature. In such a building suitable room should be provided for the Wisconsin Academy of Sciences, Arts and Letters.

STATE BOARD OF HEALTH.

The gentlemen composing the board are among the most eminent in their profession in the State, and I would recommend that the Legislature extend to them a generous encouragement. Their labors have resulted in great benefit to the health of our people, and there can be no doubt that greater benefits may in the future be expected. Their suggestions for the restriction and prevention of contagious diseases have been widely circulated throughout the State, and have been adopted by a large class of our citizens, and their wisdom fully proven. The board has succeeded in securing reports from about nine hundred different localities in the State, and have awakened a deep feeling among the people upon the subject of the suppression of disease. Their suggestions for securing for schools, prisons and public buildings proper hygiene, have been adopted in many localities with good results. In my opinion, their services to the State cannot be dispensed with, and too much care cannot be taken to protect the lives and health of the people.

RAILROADS.

The total mileage of the railroads of the State, as reported to the Railroad Commissioner on the 30th day of June, 1881, was 3,142.43 miles, at a cost, including equipments, of $129,641,419.87, being an average of $41,258.04 per mile.

The total earnings of the railroads of the State for the year ending June 30, 1881, were $15,478,172.61, being an average of $4,814.91 per mile of operated road. The operating expenses were $9,085,437.08, being $2,826.28 per mile; the excess of earnings over operating expenses was $6,392,735.53, or $1,988.63 per mile. The passenger earnings on all of the roads in the State were $3,527,478.89, and the freight earnings $10,979,446.81. The whole number of passengers carried during the year in the State was 2,966,965, or an equivalent of 119,599,855 passengers carried one mile. The whole number of tons of freight carried was 5,407,297, or an equivalent of the carriage of 657,499,156 tons one mile. The average rate of all freights carried in the State during the year was 1.68 cents per ton per mile.

The total number of miles of road built in the State during the year ending December 31, 1881, was 300 against 238 22-100 miles for the year 1880. The total mileage of the railroads of the State on the first day of January, 1882, was 3,433.88 miles. The present indications are that a much larger amount of road will be built in 1882 than was built in 1881, unless some unlooked for financial revulsion shall cut short work already under contemplation.

The commissioner reports the gratifying fact that not a single passenger has been killed upon the railroads of Wisconsin during the year, with very few casualties of any nature to the traveling public. This shows a commendable care for the protection of human life, on the part of the management, and of those having charge of the running of trains.

No brief summary of the report of the commissioner can do it justice or present in proper form the interesting statistics and the valuable information therein given. The questions discussed and the suggestions made in regard to changes in the laws should be studied, and any defects in the existing law should be remedied by appropriate legislation. The report will be laid before you in a few days, and I commend to your special consideration those portions of the report referring to: "Reports to State Treasurer and Commissioner," "License Fees of Railroads," and "Discriminations," and trust that in your wisdom you will be enabled to perfect all the laws relating to the working of the railroad department, in the interest of justice, and an equal distribution of the burdens and the gains upon the producer and the carrier alike.

The province of the State through its Legislature, to pass such laws in regard to transportation as shall be deemed for the intereststs of all the people, has become a settled fact, through the decision of the highest tribunal of the land; and is accepted as wise policy by the great corporations themselves. It becomes, therefore, the highest duty of the Legislature to give due thought to all railroad legislation, and to act with such wisdom, that while it shall not be unduly rigorous in the restrictions it imposes by law, it should not for a moment forget any proper and healthful protection to the producing classes, but give to the whole people such enactments as shall bestow justice and equality of rights with an impartial hand. And in the furtherance and perfection of this principle of regulation, I do not think it unreasonable to hope that the time is not far distant when the interstate commerce of the country will be regulated by *national statute* in such an harmonious adjustment as will meet the requirements of the producing and consuming portion of society.

INSURANCE.

The department of insurance continues to be of great service to the people of the State in the protection afforded them against fraudulent insurance, which has become a serious grievance in many States. The commissioner's certificate of authority to a company has come to be regarded as almost a guaranty of its soundness. To his recommendations I invite your attention as worthy of consideration.

FISH CULTURE.

Under the management of the State Board of Fish Commissioners, the artificial propagation of fish is no longer an experiment, and by means thereof our streams and lakes are annually becoming better stocked with fish to which these waters are adapted. There is no room to doubt the desirability of continuing the commission. For the coming year an appropriation of $8,000 is asked:

During the past year there have been distributed from the hatcheries as follows:

Brook trout	3,058,000
Carp	162

There are eggs now in hatching process as follows:

Brook trout	1,500,000
Lake trout	4,000,000
White fish	5,500,000

The money at the command of the commission for the year was, including $7,000 appropriation by the Legislature, $9,244.60. The expenditures, including $500.00 outstanding indebtedness on January 1st, amounted to $8,639.67, leaving a net balance in their hands at that date of $604.93.

IMMIGRATION.

The Board of Immigration have expended, as will appear by their report, during the year 1881, $5,514.41, and that 47,956 immigrants have arrived in Milwaukee during the year, and that 53.7 per cent. of them remained and settled in this State; whereas in 1880 the percentage of those settling in this State was only 40.04, and in 1879 was only 37.7; and that there were 8,565 who arrived in Chicago and made Wisconsin their home, but did not pass through Milwaukee. Of the whole number of immigrants arriving at Milwaukee, 25,769 were destined for Wisconsin, and of which 14,119 were from Germany, 3,510 from Norway, 1,558 from Sweden, 1,030 from Denmark, 121 from England, 173 from Ireland, 16 from Scotland, 28 from France, 237 from Holland, 981 from Bohemia, 3,224 from Poland, and 262 from other countries.

The work of the board has been very beneficial to the State, and the immigrants have been of the best agricultural and industrial classes, and have made material additions to our capital and wealth.

THE WISCONSIN NATIONAL GUARD.

The military organization of the State is in a very creditable condition of efficiency. The increased aid given to the companies by recent legislation has resulted in a marked improvement in the service, and has fully vindicated the wisdom of the appropriation. The report of the adjutant general shows a force of thirty-two companies of infantry and two of cavalry now organized, numbering 115 officers and 2,318 enlisted men, a total of 2,433. Four battalions are now organized. The companies, with the exception of two recently formed, are fully uniformed and armed with the best arms in use. Although our militia consists of but a small organization, and expenditures for its support are comparatively light, yet for efficiency and discipline, convenience of location for speedy concentration, advance of instruction and excellence of material, it is second to none in the Northwest. To maintain it in the highest attainable state of effectiveness is an object worthy your consideration.

INDUSTRIAL SCHOOL FOR GIRLS.

The report of the managers of the Industrial School for Girls has been received, and I transmit the same to the Legislature. There is no provision by law for the printing of this report by the commissioners, and provision should be made therefor. The expenditures made from the appropriations of the last Legislature are $4,927.12; these were made for special purposes designated by the law, and were mostly for permanent improvements.

The management of this instution is under the special care of a board of lady managers, and their work a very important and difficult one.

CONSTITUTIONAL AMENDMENT.

The people at the late election having ratfied the constitutional amendment providing bennial session of the Legislature, and the same having become a part of the constitution, I therefore recommend the passage of the second amenement, now pending, and its submission to the people, in order that our elections may be uniform and less frequent.

THE CENSUS.

The population of the State, as shown by the United States census of 1880, is 1,315,480, an increase of 24.6 per cent. since 1870.

APPORTIOIMENT.

I call your attention to the apportionment of the State into senate and assembly districts, and also into congressional districts when congress shall have passed the necessary Legislation. In doing this, you should take into consideration the population, community of interests, and compactness of territory, so far as it can be done, without special regard to the political sentiment of the various localities.

PORTRAIT OF HON. M. H. CARPENTER.

In accordance with Joint Resolution No. 51, Assembly, passed by the last Legislature, the governor has procured a crayon portrait of the late Senator M. H. Carpenter, made by Mr. W. H. McEntee, and has caused the same to be placed in the rooms of the State Historical Society. The amount expended therefor was $308, paid by the governor out of the contingent fund. The work is commended as one of much skill, and is a most fitting tribute to the esteem of Wisconsin's most gifted orator.

CONCLUSION.

I have thus briefly called your attention to such matters as seem, in my judgement, to be for the welfare of the State. The people expect economy in expenditures, and will hold all public officers to a strict accountability for all of their transactions. With grateful hearts to the Supreme Ruler of the universe for all the blessings we enjoy, and a firm reliance upon Him for our future guidance, let us proceed to the discharge of the duties imposed upon us by the constitution and the laws.

JEREMIAH M. RUSK.

EXECUTIVE CHAMBER, Madison, Wis., January, 1882.

A GERMAN naturalist has contrasted the behavior of different animals towards steam machinery. That proverbially stupid animal, the ox, stands composedly on the rails in front of a locomotive without having any idea of the danger which threatens him; dogs run among the wheels of a departing railway train without suffering any injury; and birds seem to have a peculiar delight in the steam engine. Larks often build their nests and rear their young under the switches of a railway over which heavy trains are constantly rolling, and swallows make their homes in engine houses. A pair of swallows have reared their young for years in a mill where a noisy three hundred horse power engine is working night and day, and another pair have built their nest in the paddle-box of a steamer.

CORRECT taste is always true to nature; the "beautiful appearance of the earth and the heavens," the regular changes of the seasons, the succession of day and night, fill the heart of him who is influenced by it with rapture. The nearer works of art approach the perfection of nature, the more consonant they are with good taste, and they command lasting and universal admiration.

Nature doubts whether our Fish Commissioners will be able greatly to increase the yield of sea fish like shad, herring, and cod. The arguments of Malthus respecting the food supply and the increase of population are thought in England to be applicable to fish. "Sea fish, like all other animals," it says, "are undoubtedly increasing in greater proportion than their food; and it is obvious, therefore, that unless man can increase their food, it is only lost labor to increase their number.

"IF A doctor has the luck to find out a new malady," said Oliver Wendell Holmes, "it is tied to his name like a tin kettle to a dog's tail, and he goes clattering down the highway of fame to posterity with his attachment following at his heels."

HOLMAN HUNT says: "I have always found that people who delayed doing their work till after a certain period did nothing at all."

15000 PASTILLE

THE PASTILLE
Prof. Harris' Radical Cure
TradeMark
FOR
NERVOUS DEBILITY
SOLD IN A YEAR
AND SPERMATORRHŒA.

A valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions and Impotency by the only true way, viz: Direct Application to the principal Seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles, Ejaculatory Ducts, Prostate Gland, and Urethra. The use of the Remedy is attended with no pain or inconvenience, and does not interfere with the ordinary pursuits of life; it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dimness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, etc., etc., and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation. Practical observation enables us to guarantee that it will give satisfaction. During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in neat boxes, of three sizes. No. 1, (enough to last a month,) $3; No. 2, (sufficient to effect a permanent cure, unless in severe cases,) $5; No. 3, (lasting over three months, will stop emissions and restore vigor in the worst cases) $7. Sent by mail, sealed, in plain wrappers. Full DIRECTIONS for using will accompany EACH BOX.

Send for Sealed Descriptive Pamphlets giving Anatomical Illustrations and Testimony, which will convince the most skeptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sold ONLY by

THE GAZETTE.

THURSDAY, JANUARY 12.

The circulation of the GAZETTE *is larger than the combined circulation of any five newspapers in Rock county.*

Sign Lore.

A gentleman advertised in one of our daily papers for an ice chest to hold so many pounds of ice and a new harness. The wonder was why he wanted to keep his new harness in an ice chest, until it was noticed to be an error in punctuation.

A barbers sign once read:

"What do you think
I'll shave you for nothing and give you a drink."

When his customers asked him for the drink and refused to pay, he took them outside and read to them:

"What! do you think
I'll shave you for nothing and give you a drink."

Detached sentences often present a quaint expression:

"Job printing!" said an old lady, reading the familiar sign, "poor man, he must be awful tired of it, for he's been at it ever since I can remember!"

In a druggist's window at Chicago there was for many years a sign: "Artificial eyes," and immediately under it: "Open all night."

A merchant once told a sign painter he wanted a neat sign with a couplet in rhyme, painted in gold letters; when the man brought the sign the inscription read:

"Sugar and tea sold."

The merchant asked angrily where the rhyme was, when the painter read it to him:

"Sugar and tea
s-o-l-d."

A sign on a tobacco factory reads:

"Twenty boys wanted to strip."

"Shirts re-enforced" is the legend in a Detroit dry goods store. It means that they are provided with double yokes.

"Mr. Jones' Shirt Store" read an old lady, cautiously. "Well, why doesn't he get it mended?"

"Pocket-books reduced to fifteen cents," was the notice in a store window, and a wag passing remarked that he was reduced to nothing.

In Pennsylvania there was an old house called the Harrowgate. In front of it and directly on the sidewalk hang an old gate with this inscription:

"This gate hangs well and hinders none;
Refresh, and pay and travel on;
Good ale for nothing to-morrow."

Another sign reads:

"I, Patrick McDermott, lives here;
I sell good porter, ale and beer;
I've made my sign a little wider
To let you know I keep good cider."

—*Detroit Free Press.*

SCRAPS OF SCIENCE.

COPPER, if suddenly cooled, becomes soft and malleable; if cooled slowly it hardens and becomes brittle.

THE sharpness of outline and the bright color of the brown spot which has been so long visible on Jupiter has enabled astronomers to deduce from nearly 1,100 rotations that the length of Jupiter's days are 9 hours, 55 minutes, 36 seconds.

A CYPRESS tree, 75 feet high, 10 feet in diameter, and more than 2800 years old was recently destroyed near Sparta, Greece. This celebrated remnant of the life of by-gone ages was described by Pausanias 400 years before Christ. The Spartans mourn its loss.

PROF. HELMHOLTZ expresses the opinion that our planetary system must sooner or later come to an end by the exhaustion of its forces. The sun must ultimately "run down" like a clock. He thinks that the existing stock of power available for the maintaining of life may last some 17,600,000 years.

A FRENCHMAN proposes to rent for mushroom-raising purposes a portion of the Mammoth Cave, Kentucky. The part selected by him is the avenue named in honor of Audubon. It is said that the proposed mushroom farm will not affect the natural grandeur of the wonderful cavern.

A FRENCH electrician, M. Gaiffe, has investigated the peculiar sounds which interfere with messages sent on telephone lines. He finds that the sounds are largely due to the vibration of the telephone wires by the wind. The sounds are doubtless often produced by the inductive action of electric currents passing over neighboring telegraph wires; but this is far from being the only cause, as has been generally believed.

NEVADA'S mountain mahogany appears to be a tree well worth looking after by arboriculturists. It will burn brightly long after the timber of other trees is reduced to ashes, and then give a long, glowing charcoal fire. When well seasoned, it is as dense as boxwood, has a fine grain, and has properties that admirably adapt it for carving and other purposes in the arts. When full grown, this mahogany of Nevada does not exceed three feet in diameter.

ONE of the leading Paris lithographers has been very successful in substituting zinc for lithographic stones. By using 5,000 zinc matrices, worth $7,700, he has avoided an expenditure of $50,000 for stones, besides considerable saving in the cost of handling and manipulating. He has published in this way the illustrations of the works of the Polytechnic School, the departments of bridges and Highways, the Ministry of public works and different municipalities. Each plate is good for 40,000 impressions.

CAREFUL observations have shown the following to be about the average growth in twelve years of several varieties of hard wood when planted in groves and cultivated: White maple becomes one foot in diameter and thirty feet high; ash, leaf maple or box elder, one foot in diameter and twenty feet high; white willow, eighteen inches in diameter and forty feet high; yellow willow eighteen inches in diameter and thirty-five feet high; Lombardy poplar, ten inches in diameter and forty feet high; blue and white ash, ten inches in diameter and twenty-five feet high; black walnut and butternut, ten inches in diameter and twenty feet high.

MR. BOUDET has constructed an apparatus for relieving pain by mechanical vibration. It consists of a tuning-fork kept in constant vibration by an electro magnet, and the tremors thus produced are communicated directly to the skin by means of a rod. The efficacy of vibrations is no doubt due to the irritating effects of the shocks on the terminal twigs of the nerves, after it is expected that many kinds of pain will be dispelled by the use of this appliance. When the nerves are not too deep-seated, Boudet's apparatus is said to be capable of charming away neuralgia in a few minutes. When it is applied to the skull it produces a sense of giddiness and a desire to sleep.

Household Words.

James Pearson, 28 Sixth street, Buffalo, says: "I have used your SPRING BLOSSOM for myself and family, and think it invaluable as a household remedy, for regulating the bowels, liver and kidneys. I shall never be without it." Price 50 cents, trial bottles 10 cents.

Sold by A. J. Roberts, and F. Sherer & Co.

A Generous Brother.

A young English nobleman, whose own finances are not in very first-rate order, and who is obliged to measure his own expenses by the length of his purse, received a cool request from his younger brother that he would kindly pay up his debts, amounting, so he said, to between £3,000 and £4,000. As this is by no means the first time, the Earl earnestly pressed his brother to acquaint him with the whole of his liabilities, in order that he might pay them off once and forever. The next day the schedule was duly presented, and the demand rose this time to £10,000. The most wonderful and unaccountable part of the whole of this true story is, that the elder brother paid the money.—*London World.*

Seventy Thousand Lost Children.

They form a large item in police duties and during the last year they numbered 5,096, beside 100 foundlings. The aggregate of lost children during the last nine years is nearly 70,000. It seems quite remarkable that the largest number occurred during 1862, when 9,806 lost children were picked up in the street, an excess over 1869 of more than 50 per cent. I can only explain the difference by the war excitement of that time and by the fact that nearly 60,000 soldiers were enlisted in this city, thus depriving many females of their guardians. About 800 foundlings have been cared for during the nine years referred to.—*New York Cor. of the Troy Times.*

FEELINGS are a most important and necessary part of human nature. Out of them spring the joy and the beauty of life. But they never can yield their best results unless they are under the control of reason. Pope says, "The ruling passion, be it what it will, the ruling passion conquers reason still." He who succumbs to this rule within his breast must part with his reason, manliness, independence, and must forfeit the happiness and the power of conferring the happiness which comes from well-regulated social intercourse.

FOR SALE.—$1200 will buy a large house and lot, with good barn, on South Main street. Small payment down, long time on balance. Inquire at Gazette office.

LOOK HERE!

I HAVE A WORD TO SAY.

Thanking my friends, and all others, for their liberal patronage in the past, I would say that I have never been as well situated to give every one as good fitting custom made garments as at the present time. A garment cut artistically, trimmed in good taste, and made up by superior workmen, cannot fail to please any one. I have been successful in engaging the services of F. ALBERT SMITH, direct from Boston, to fill the required position of cutting and superintending the making of all the custom work. We will not allow any garments to go out from this time unless entirely satisfactory both in fit and workmanship I have the best and most skillful workmen, and they are stayers, too, regardless of large offers They work for me for the simple reason that I pay them well for doing good work, and d by them as I would have them do by me

For the month of January we shall give special reduction on all of our custom made garments. Come and see us, and we will make it to your advantage Goods shown with pleasure.

P. S.—First class work a specialty,

Dr V. CLARENCE PRICE HAS Visited Janesville EIGHTEEN YEARS

Has met with unparalleled success in the treatment of all

CHRONIC DISEASES! OF THE Throat, Lungs, Heart Stomach, Liver.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

DR. PRICE'S REPUTATION!

Has been acquired by candid, honest dealing and years of successful practice,

My practice, not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic Diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

Dr. V. Clarence Price

Can be consulted at JANESVILLE, MYERS HOUSE, on Saturday, the 25th of February 1882.

Patients will address all letters to Dr. V. Clarence Price, Waukegan, Ill., with stamp

SOME OLD FOGIES

Will tell you it does not pay to advertise. We are happy to say that is not our opinion. On the contrary we have abiding faith that it does pay, and as we have secured this space in this paper, propose to utilize it in informing the public generally, and our patrons in particular, that we have now in stock a full and complete line of

Books and Stationery

Suitable to the wants of all, both old and young. We have also a large and fine collection of

All kinds of Photograph and Autograph Albums, Photo and Artotype Engravings

As well as other lines of Pictures, Cabinets, Frames and Easels. Ladies and Gents' Pocket Books—an elegant line. Opera Glasses, Ladies' Dressing Cases, Toilet Mirrors and other Fancy Goods too numerous to mention. We desire particularly to call your attention to our large and splendid collection of Christmas and New Year's Cards, which for beauty of design and excellence of finish cannot be excelled. Also to our beautiful and attractive Novelties suitable to the Holiday trade, to the selection of which we have devoted much time and care. Of course it is impossible to enumerate all of the articles we have in stock in this space, but we cordially invite all to call and examine our stock and judge for yourselves.

Daily from 8:00 A. M. to 8:00 P. M. On Sundays from 12:00 to 1:00 P. M. Money order and Registered Letter Department open from 8:00 A. M. to 12:00 M., and from 1:00 to 5:00 p. m., except during the distribution of the mails. Stamps, stamped envelopes, postal cards and Wrappers for sale at East front wicket from 8 A. M. to 8 P. M. Orders for stamped envelopes with return card printed thereon, should be left at the Money order Department.

On Saturday night ONLY, a through pouch from Chicago is received on the Fond du Lac train; and on Monday morning ONLY, a through pouch is made up and farwarded to Chicago on the 7 o'clock train.

By reading this table carefully, the public can post themselves thoroughly upon the arrival and departure of all the mails, and thus avoid much inconvenience to themselves.

H. A. PATTERSON, P. M.

A Welsh Opinion of Royality.

It is, we think, to be regretted that the Prince of Wales has declined to allow his name to be used in connection with the National Eisteddfod of Wales. The loyalty of the Welsh people is beyond question, but when they ask a little favor it ought, if possible, to be granted. As there must have been reasons why his Royal Highness declined to have anything to do with the Eisteddfod it seems a pity they were not stated. We make these remarks because the refusal of the Prince to patronize the Eistoddfod has not only created a sore feeling in the Principality, but it has also exposed him to vulgar abuse, and has given the enemies of the Monarchy the opportunity of attacking not merely the Prince himself, but also the Queen and the Royal family.

Thus, a contributor to a Welsh newspaper elegantly declares that the incident has "shortened Royality's life in this country fifty years."

"Already," he continues "the Welsh press have been heard to grumble, not only loudly but angrily, at this ungracious conduct of him who some day hopes to be called His Most Gracious Majesty. In the columns of an English daily last week appeared an article which, though not (because of the old absurd veneration for Royalty so long prevailing) so outspoken as it might have been, may yet be considered the first mutterings of a storm which will one day burst as surely as it is now brewing. Men, who, if you had spoken to them sneeringly or slightingly of the principle of Royalty a few months back, would have turned away from you in disgust, are now beginning to see through the mists of prejudice, and to question the use of the thing. When not only the utter uselessness, but the positive evil, of that which they have to pay so dearly for shall become apparent, then will it and other fooleries and sins be sent packing. As a beginning in the right direction, allow me to suggest the dropping from all toasts lists of the insane custom of drinking the healths of the Queen, the Prince of Wales and the rest of the Royal family. Welshmen have (although not for the first time) received proof positive that none of them are of any use to Wales. Even the musical and literary members of that family—the fiddling Duke of Edinburgh and the studious little Leopold, whom the irreverent believe to be in training for the Arbishopric of Canterbury—have thought themselves above patronizing Welshmen of like pursuits with themselves.—*London Figaro.*

Premature Loss of the Hair

May be entirely prevented by the use of BURNETT'S COCOAINE. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. *It softens the hair when harsh and dry. It soothes the irritated scalp. It affords the richest lustre. It prevents the hair from falling off. It promotes its healthy, vigorous growth. It is not greasy nor sticky. It leaves no disagreeable odor. It kills dandruff.*

Burnett's Flavoring Extracts are known as the best.

Some Definitions.

One of Thackeray's daughters has just published a little book about her friend, Miss Evans, in which she prints some delightful definitions made by that lady. Some of these are as follow:

"A privileged person—One who is so much a savage when thwarted that civilized persons avoid thwarting him."

"A liberal-minded man—One who disdains to prefer right to wrong."

"Radicals—Men who maintain the supposed right of each of us to help ruin us all."

"Liberals—Men who flatter Radicals."

"Conservatives—Men who give way to Radicals."

"A domestic Woman—A woman like a domestic."

"Humor—Thinking in fun while we feel in earnest."

"A musical woman—One who has strength enough to make much noise, and obtuseness enough not to mind it."

Ladies' Pet Dogs.

Ladies who are fond of dogs as pets, and have long desired to spend their husband's "cigar money"—for it's getting to be quite the thing now to give the wife instead of an allowance, the same amount of money that he spends each month for cigars—barring the ones he treats his friends to—and she is usually satisfied with the amount—for a pet dog will be interested in knowing the value placed upon them by dealers and at which they are sold in the market: Black-and-tan terriers, $10 to $15; Scotch terriers, $15 to $35; Skye terriers, $20 to $50; Italian hounds, $25 to $60; Spitz dogs, $15 to $35; poodles, $15 to $30; English, Irish, or native pointers, $25 to $100; English, Irish, or native field cockers or water spaniels, $25 to $50; King Charles spaniels, $35 to 75; Siberian blood-hounds, $35 to $100; English mastiffs, $40 to $100; Newfoundland dogs, $25 to $35; bull dogs, $35 to $75; terriers, $20 to $40; fox hounds, $25 to 50; harriers and beagles, $25 to 50; shepherd dogs, Scotch, English, and native, $25 to $75.—*New York Sun.*

"The Commodore."

Jos. L. Foote, the Commodore, Elgin, Ill., says THOMAS' ECLECTRIC OIL cured him of sciatica with one application, thoroughly applied. It also cured him of severe cold and cough. He thinks it a very valuable remedy, and will never be without it.

For sale by A. J. Roberts and Sherer & Co.

ODE TO A HORSESHOE.

Thou relic of departed horse!
Thou harbinger of luck to man!
When things seem growing worse and worse,
How good to find thee in the van!

A hundred thousand miles, I ween,
You've traveled on the flying heel—
By country roads, where fields were green,
O'er pavements, with the rattling wheel.

Your toe-calk, in that elder day,
Was sharper than a serpent's tooth;
But now it's almost worn away;
The blacksmith should renew its youth.

Bright is the side was next the ground,
And dark the side was next the hoof;
Tis thus true metal's only found
Where hard knocks put it to the proof.

For aught I know, you may have done
Your mile in two nineteen or twenty;
Or, on a dray horse, never run,
But walked and walked, and pulled a plenty.

At last your journeys all are o'er,
Whether of labor or of pleasure,
And there you hang above my door,
To bring me health and strength and treasure.

-Scribner's Magazine.

First Gold in California.

Gen. Sherman has given this account of the first discovery of gold in California: "I remember one day that two men, Americans, came into the office and inquired for the Governor. I asked their business, and one answered that they had just come down from Capt. Sutter on special business, and they wanted to see Gov. Mason in person. I took them in to the Colonel and left them together. After some time the Colonel came to his door and called me. I went in, and my attention was directed to a series of papers unfolded on the table, in which lay about half an ounce of placer gold. Mason said to me, 'What is that?' I touched it, and examined one or two of the larger pieces, and asked, 'Is it gold?' Mason asked me if I had ever seen native gold. I answered that in 1844 I was in Upper Georgia, and there saw some native gold, but it was much finer than this, and that it was in vials or in transparent quills; but I said that if this were gold it could easily be tested—first, by its malleability, and next by acids. I took a piece in my teeth and the metallic luster was perfect. I then called to the clerk (Baden) to bring an ax and hatchet from the backyard. When they were brought I took the largest piece and beat it out flat, and beyond doubt it was metal, and a pure metal. Still, we attached little importance to the fact, for gold was known to exist at San Fernando, at the south, and yet was not considered of much value."

A Novel Banking Institution.

In connection with the New York Newsboys' Home is a bank, which in some respects is without a rival. The "bank" is a square table with a number of holes cut in the top. It is fitted with a drawer having compartments directly under and corresponding with the holes. Each hole is marked with a number, the figures running from No. 1 up to No. 250. Every boy in the institution is assigned a compartment in which to deposit his surplus earnings.

The bank has no President, Secretary or Board of Directors, thus saving salaries, and its business is conducted on a fair and honest basis.

Though the bank sometimes contains several hundred dollars, no attempt has ever been made to rob it. It was thought at one time that there had been defalcation, one depositor declaring that his account was 50 cents short, but it was ascertained that he had put his 50 cents in another boy's box.

The deposits are returned to the depositors at the end of each month. The bank pays 1 per cent. interest per month, which is raised by voluntary subscriptions from friends who wish to encourage the boys to save their earnings. The boys are prevented from redepositing their savings by a rule prohibiting the payment of interest on a larger sum than $5.

Matches.

The invention of matches was a happy thought, and is thus told by the inventor: "I used to get up at 4 o'clock in the morning to pursue my studies, and I used at that time the flint and steel, in the use of which I found great inconvenience. I gave lectures in chemistry at the time at a large academy. Of course I knew, as other chemists did, the explosive material that was necessary to produce instantaneous light, but it was difficult to obtain a light on wood by that mixture, and the idea occurred to me to put sulphur in the mixture. I did so, and told about it, and showed it in my next lecture. There was a young man in the room whose father was a chemist in London, and he at once wrote to him about it, and soon afterward lucifer matches were issued to the world. I was urged to go and take out a patent immediately, but I thought it so small a matter, and it cost me so little labor, that I did not think proper to get a patent, although I have no doubt it would have been very profitable." The name of this inventor of matches is Mr. Holden, and he is an Euglishman.

Rescue with HALE'S HONEY of HOREHOUND and TAR, before the baby strangles with croup. PIKE'S TOOTHACHE DROPS cure in one minute.

The Law of Kindness.

Is universal; it affects all the human family, all animals, and may be even found in patent medicines. Some are drastic, and the patient is obliged to suffer pains worse than the disease; but in cases of obstinate constipation, dyspepsia, there is no remedy so kind, so gentle in its effects, and yet so satisfactory, as BURDOCK BLOOD BITTERS. Price $1.00, trial bottles 10 cents.

Sold by A. J. Roberts, and Sherer & Co.

THEY met on the stairs.

"Hello!"

"Hello!"

"Say, old boy, you are growing mighty careless."

"How?"

"Why, just now I found the door of your room wide open."

"That's all right. I haven't been gone a minute."

"Well, I knew you'd do the same by me, and so I shut it."

"Thanks. The first time I find your door open, the spring-lock set to catch and the keys on your desk I'll return the favor. Please send me up a burglar and a crowbar as you go down."

UNSELFISH and noble acts are the most radiant epochs in biography. When wrought in earliest youth they lie in the memory of age like coral islands, green and sunny, amidst the melancholy waste of ocean.

NOTICE TO CREDITORS—County Court Rock County.—In the matter of the estate of Magnus Hanson, deceased.

Letters of administration having been issued this day to Mavn Hanson, and the time for creditors to present their claims for allowance having been limited to the 1st day of August next, notice is hereby given that this Court, at the office of the Judge thereof, in the city of Janesville, in this county, at the next Aug. term, on the 1st Tuesday of Aug. next, from 1:30 o'clock p. m. to 3 o'clock p. m., will receive, examine, and adjust all claims and demands of all persons against said deceased.—Dated January 7th, 1882.

By the Court.

AMOS P. PRICHARD,
jan7doew1w County Judge.

CIRCUIT COURT, ROCK COUNTY.—Marianna A. Ogden, Edwin H. Sheldon, William O. Wheeler, Andrew H. Green and William E. Strong, as executors and trustees under the last will and testament of William B. Ogden, deceased, plaintiffs, vs. Michael Gallagher, defendant.

The State of Wisconsin, to the said defendant, and each of them:

You are hereby summoned to appear within twenty days after service of this summons, exclusive of the day of service, and defend the above entitled action in the court aforesaid and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint; of which a copy is herewith served upon you. [The complaint in above action was filed in the office of the clerk of said court Dec. 7th, 1881.]

PEASE & RUGER,
Attorneys for Plaintiffs.

P. O. Address, Janesville, Rock County, Wis
dec10doew7w

CIRCUIT COURT FOR ROCK COUNTY.—Joseph A. Sleeper, executor of the last will and testament of Charles Norton, deceased, plaintiff, against Frederick O. Child, Mary E. Child his wife, Nancy F. Child and W. B. Lawrence, defendants.

By virtue and in pursuance of a judgment of foreclosure and sale, entered in the above entitled action, at a regular term of the Circuit Court for Rock County, Wisconsin, on the 26th day of November, A. D. 1880, in favor of the above named plaintiff and against the above named defendants, I shall offer for sale and sell at public auction, to the highest bidder, at the front door of the post office in the city of Janesville, in said county of Rock,

On the 21st day of January, A. D. 1882, at two o'clock in the afternoon of that day, the following described premises lying and being in the town of Bradford, in the county of Rock and State of Wisconsin, and known as the west half of the northwest quarter of section number eighteen (18) in township number two (2) north of range number fourteen (14) east, or so much thereof as may be sufficient to satisfy said judgment and costs and interest and costs of sale, and as may be sold separately without material injury to the parties in interest.—Dated December 8th, 1881,

H. L. SKAVLEM,
Sheriff Rock Co., Wis.

TODD & CARPENTER, Plaintiff's Att'ys, Janesville, Wis. dec8doew7w

CIRCUIT COURT FOR ROCK COUNTY.—David Jeffris and Charles H. Carpenter, plaintiffs, against Margaret Norton and Eli Leavett, defendants.

By virtue of a mechanic's lien judgment of foreclosure and sale, entered in the above entitled action, at a regular term of the Circuit Court for Rock County, held at the city of Janesville in said county, on the 2nd day of December, A. D. 1881, in favor of the above named plaintiffs and against the above named defendants, I shall offer for sale and sell at public auction, to the highest bidder, at the front door of the post office in said city of Janesville and county of Rock,

On the 18th day of January, A. D. 1882, at ten o'clock in the forenoon of that day, the dwelling house and all the right, title and interest which the defendant Margaret Norton had on the 20th day of April, 1881, or which she or any person claiming under her has since acquired in and to lot number eight (8) in block number twelve (12) in Smith's addition to Janesville in Rock county, upon which said house is situated, or so much thereof as may be sufficient to satisfy said judgment, interest and cost of sale. Dated December, 3d, 1881.

A POPULAR TONIC

For Weak Lungs and Consumption.

No preparation ever introduced to the American public, for the relief and cure of Coughs, Colds, Sore Throat, Debilitated Constitutions, Weakness of the Lungs, or Consumption in the incipient or advanced stages of the disease, has ever met with the indorsements of physicians or patients as the celebrated "Tolu, Rock and Rye." The repeated and continued sales of the article everywhere are the best evidence of its real merits. Letters and testimonials from every quarter of the country, attesting the stimulating, tonic and healing effects, are in possession of the proprietors, and can be adduced to convince the most skeptical reader of its intrinsic virtues. Further commendation is unnecessary and superfluous, as a trial of this article, having a pleasant taste and agreeable flavor, will satisfy all those who are afflicted or pining away with pulmonary weakness of the relief to be secured by the use of Tolu, Rock and Rye.—*Chicago Times.* dec2deod6m

A Cough, Cold, or Sore Throat should be stopped. Neglect frequently results in an **Incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES** do not disorder the stomach like cough syrups and balsams, but **act directly on the inflamed parts**, allaying irritation, give relief in **Asthma, Bronchitis, Coughs, Catarrh,** and the **Throat troubles** which **Singers and Public Speakers** are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c a box everywhere.

10,000 CALVES!

Wanted, from two days to eight weeks old, for which the highest market price will be paid at the market on the bridge.

nov30d2ew1swtf R. J. ROONEY

BRIEFLETS.

—Don't forget the prayer meetings tonight.

—The weather is on its good behavior.

—The mildness of the winter weather nearly beats the "oldest inhabitant."

—Miss Maggie Inman is in the city for a few days, accompanied by an Iowa cousin.

—The funeral of DeWitt Chapin was held this afternoon, the remains being interred in Oak Hill.

—George Chatfield, the burglar, got one year in the in the pententiary, and one day in solitary confinement.

—Miss Lizzie Sperry, of Chicago who has been visiting the home of Mr. and Mrs. Thomas Lappin, returned home today.

—The Hi Henry Premium minstrel troupe which was advertised to appear on the 3d of February, has cancelled its date.

—Miss Fannie Richardson, who has been spending a few days with Miss Bertha Sayles, left for her Chicago home to-day.

—There will be a full-dress drill at the Guards armory this evening, to which the friends of the members of the company are invited.

—The next criminal case before the Municipal court is the State against John P. Fonda, the complaining witness being W. H. Lathers, of Turtle.

—Cornelius against Cornelius, is the title of a divorce case which occupied the attention of the Circuit court this forenoon. Judge Conger took the case under advisement.

—Beloit has a justice of the peace who, in making out his report to the county board, charged the county for marrying three or four couples. Beloit has many queer people and strange ways.

—The man who stole and then broke a wheel, at Beloit—Jacob Retzel—and who was tried in the Municipal court on Tuesday, has been sentenced to one year in the penitentiary, by Judge Patten.

—The Beloit Outlook was not particularly well pleased with Widow Bedott. It thought the fun was a little too broad and the piece too tedious. The Outlook is the first paper in the United States to make this discovery.

—Miss M. A. Balch, of Medina, New York, sister of Mr. J. H. Balch, of this city, is the author of a piece of music entitled "Garfield March," and dedicated to Miss Mollie Garfield. It is published by Gibbons & Stone, Rochester, New York, and is pronounced an excellent piece of music. It is for sale in this city.

—The family of the late Joseph F. Briggs wish throught the Gazette to express their sincere thanks for the many acts of kindness and sympathy shown them, by their many friends, and especially do they remember that noble brotherhood that came day after day, with loving hearts and ready hands, showed them such sympathy in their great bereavement.

—There was a happy gathering at the home of Judge and Mrs. Amos P. Prichard, last evening, the party being given in honor of Mr. and Mrs. Lyman Dearborn, parents of Mrs. Prichard, who reside at La Cygne, Kansas. There were twenty-five guests present. An elegant supper was served at seven, and from that time till eleven o'clock there was a genuine flow of soul which made this reunion of friends and relatives one long and pleasantly to be remembered.

—There is a tremendous rush at the store of Smith & Bostwick, in consequence of the goods being marked down. The scene in the store yesterday was an interesting one, the room being crowded and every clerk having more than he could attend to. Those in the city who want to do their purchasing at that store without having to elbow their way through a crowd, should go there in the forenoons, before the people from the country break loose. A word to the wise is sufficient.

—The Beloit Free Press gives Mr. Tilton, our late city editor, the following kind words: "Howard W. Tilton, who for the past four years has been city editor of the Janesville Gazette, has resigned that position and accepted a responsible situation as editorial manager of the Iowa department of the Omaha Bee, with headquarters at Council Bluffs. Mr. Tilton is a gentleman of indefatigable industry, pleasant address, and decided editorial ability. His relations with the brethren of the Rock county press have ever been of the pleasantest, and he goes to a new field of labor accompanied by the best wishes of a multitude of friends. May perpetual success attend him.

—Mr. C. L. Thomas, of this city, who was married here one week ago last Tuesday, went to his former home, Hornellsville, New York, on a visit, and the Tribune of that city notices his arrival in this wise: "A very pleasant social event was held at the residence of Mr. T. J. Magner, on Genesee street, in this city, last evening, the occasion being a reception in honor of the marriage of Mrs. Magner's brother, C. L. Thomas. Instrumental music was furnished by Prof. Wm. Stradella, on the piano, while the proceedings were diversified by recitations by Mrs. Maxson, and vocal music by Mrs. Magner. The evening's entertainment was wound up by a very pleasant dance. The refreshments served to the guests were very fine."

THE WEATHER.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

The thermometer this morning at 7 o'clock stood at 19 degrees above zero; and at 1 o'clock at 40 degrees above. Partly clear. For the corresponding time last year the thermometer stood 18 and 32 degrees above.

The indications for this region are colder, fair weather, westerly winds shifting to north and east, rising followed by falling barometer.

"The Commodore."

Jos. L. Foote, the Commodore, Elgin, Ill., says THOMAS' ECLECTRIC OIL cured him of sciatica with one application, thoroughly applied. It also cured him of severe cold and cough. He thinks it a very valuable remedy, and will never be without it.

For sale by A. J. Roberts and Sherer & Co.

THE CITY GOVERNMENT.

The Meeting of the Common Council Last Night—A Large Amount of Business Acted upon—Oil Lamps vs Gass—Amending the City Charter—The Gazette Made the Official Paper of the City.

The common council met last evening, all the aldermen being present except Hemming and Murdock.

The minutes of the two previous meetings were read and approved.

The usual batch of accounts were presented and referred to the committee on finance.

A petition was presented to the council, endorsed by the board of engineers, asking for an increase in the pay of the members of the fire companies, from $40 to $75 a year. The petitioners claim that they are compelled to do a great amount of hard labor beside attending fires, such as caring for the hose, and that they have established telegraph lines at their own expense. The petition was received and placed on file.

A report was read from Judge Patten, of the Municipal court, of the fines and fees received by him during the month of December, the amount being $103.50.

Alderman Hawes moved that William Ross, of the Third ward, be permitted to set a kerosene lamp post on the corner of South Third and Jackman streets, in the Third ward.

Mr. Ross was permitted to address the council on the subject. He said the cost of the post including the oil, for a full year, would not be more than $12.00, while a gas lamp post with the gas, would cost not less than $90. He said it was much needed in that part of the city, and he suggested an oil lamp post because the city would not want to pay $90 for gas.

Alderman Fitzgibbon said he would oppose the erection of such a lamp post, for the reason that it would lead to the establishment of others, and there would be no end to the applications for them. There would be from one to three at every meeting of the council. He congratulated Mr. Merrill, president of the New Gas Light Company, for reducing the price of gas whenever he could afford it, and said if the city really needed another lamp-post, it could afford to get something substantial. If this one oil lamp-post was the last of it, it might be all right, but he warned the council that if they granted this one there would be anywhere from one to ten every week.

Alderman Robinson endorsed the position of Alderman Fitzgibbon, and said that he had been appealed to for such lamp-posts, and he refused to have anything to do with them. He thought the precedent would be a bad one. When people paid their taxes they should have the proper light.

Alderman Nowlan saw no impropriety in having an oil lamp-post, and thought it would not interfere with the gas company, and beside the price was reasonable, and that kind of a lamp feasible.

Alderman Conrad said he could not oppose the proposition to erect an oil lamp-post. He thought an investment in a few such lamps where they were needed and where gas would probably be too expensive, would be a good thing, and he would vote for it. He wanted the poor people to have light as well as the rich.

Alderman Nowlan urged that the lamp post be erected, and he thought that $300 or $400 could be wisely invested in such lamps, and he hoped the motion would prevail.

Alderman Fitzgibbon said he was not advocating the gas company. The oil lamp first was simply opening the gap, and there was no telling where it would end. He thought every manufacturer who had large capital employed, should be protected, and he didn,t think there was any good reason in putting oil lamps on the streets.

The motion to allow Mr. Ross to erect the post, and the city to pay $12.00 for it including the oil for one year, was carried, all the aldermen voting for it except Aldermen Fitzgibbon and Robinson.

Alderman Fitzgibbon changed his vote to the affirmative that he might move for a reconsideration. He said he wanted the question submitted to the people.

A motion of Alderman Fitzgibbon that Mr. Ross be prohibited from erecting the post until further order by the council was lost.

Alderman Robinson said he held in his hand an old veteran—the John Hennessy chicken bill—which had been before the council many times. The committee on judiciary would make no recommendation, which buried the bill again.

Alderman Robinson, from the judiciary committee, presented a bill for $100 from Peter Myers, for work done in furnishing a room in one of his blocks for a municipal court room, a contract having been made for the room before the present court room was decided upon.

Alderman Nowlan explained the bill, and while Mr. Myers wanted a full year's rent, he thought he would take $100, and therefore the bill was allowed.

Alderman Fitzgibbon said that the committee appointed to confer with Dr. Whiting in regard to his resigning his position on the board of health, could not get a satisfactory answer from the doctor. He said he had served ten years, and there were some duties imposed on him as a health officer which he disliked and were unpleasant, and therefore he thought best to withdraw from the board.

Alderman Fitzgibbon asked for more time to consider the question, which was granted.

Alderman Robinson said the city had never had a book in which the city bonds should be registered, although the charter expressed says one should be kept, and therefore he moved that one be provided which was carried.

Alderman Robinson said the city charter was being revised, and he would move that the city attorney be authorized to revise the city ordanances.

Attorney Hyzer said he did not want to assume the responsibility of making the revision himself, and therefore wanted the judiciary committee of the council, or some one else, to consult with.

Alderman Nowlan said he was opposed to letting one man or set of men, revise the ordinances as they saw fit.

Alderman Norris, said a citizen told him that if they attempted to amend the city charter, without first submitting it to the people, he would go to Madison with his forces and defeat it.

After further discussion it was decided to revise the ordinances.

An ordinance amending that relating to the licensing of exhibitions in the city was read by the clerk. The proposed amendment provides that the manager of any exhibition hall may pay a yearly license of $100, payable quarterly in advance, instead of $5 for each entertainment.

Alderman Potter moved that it be read the second time at once, which was seconded. On motion, after some debate, the second reading was deferred.

On motion of Alderman Nowlan the city paper was dispensed with, all voting aye, except Alderman Fitzgibbon, who voted no, and Alderman Robinson, who refused to vote.

Alderman Nowlan then moved that the Daily Gazette be the official paper of the city, which carried, all the aldermen voting in the affirmative except Alderman Fitzgibbon.

It was agreed that the council meet one week from that night to consider the new city charter.

Alderman Robinson moved that inasmuch as James Hemming, pound-master, had absconded, that Dr. C. Loftus Martin be appointed to that office with the understanding that if he does not qualify within two weeks the office will be declared vacant. Carried.

Adjourned.

A SUDDEN DEATH.

There will be a great many persons in Janesville who will deeply regret to hear of the death of Mr. Albert Sherer, which took place at the home of his mother in the Second ward, at half-past six o'clock last evening. About two weeks ago, Albert jumped into the water to rescue the persons who were thrown from the boat while searching for the body of Mr. Henning, who was drowned at Monterey. From this he took a severe cold from which he could not recover. He had been confined to the house most of the time for the last two weeks, though was not considered dangerously ill. Last evening about half past six, while going out of doors, he fell. Dr. Judd was instantly called, but when he reached Sherer, he found that life was extinct. The immediate cause of his death was doubtless some affection of the heart.

Albert had many warm friends in this city. He was a generous, kind-hearted young man, and attached himself to a large circle of young people. His age was thirty-three, and by occupation was a carriage trimmer. He leaves a mother, a sister, and two brothers to mourn his sudden death, the eldest of the brothers being Mr. Frank Sherer of the firm of Sherer & Company, druggists.

The funeral services will be held at the house near the corner of Bluff and North First streets, in the Second ward to-morrow afternoon at two o'clock.

THE ROYAL ARCANUM.

At a regular meeting of Badger Council Royal Arcanum, No. 223, held last evening, the following officers were installed for the ensuing year:

Regent—Chas. Dutton.
Vice Regent—H. F. Bliss.
Past Regent—M. M. Phelps.
Orator—W. B. Stoddard.
Secretary—W. G. Wheelock.
Collector—A. W. Baldwin.
Treasurer—H. G. Reichwald.
Chaplain—S. C. Burnham.
Guide—Jas. Clark.
Warden—Ed Ratheram.
Medical examiners—Drs. J. B. Whiting and E. E. Loomis.

Regular meetings second and fourth Wednesday evenings in each month.

COMMERCIAL NEWS.

Constables' Accounts with Rock County

AT GAZETTE OFFICE

MISCELLANEOUS.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans.

ROYAL BAKING POWDER CO., New York.

FINE GOODS

A Specialty

IMPORTANT ANNOUNCEMENT

TO THE

People of Southern Wisconsin!

THE LARGEST SALE OF

DRY GOODS

Ever Known in the State, to Continue for Thirty Days for Cash Only.

The Firm of

SMITH & BOSTWICK

To be Dissolved March 1st.

The Copartnership of said Firm expires on that day by its own limitation, consequently the entire Stock of MERCHANDISE of said firm must be all CLOSED OUT before February 15th.

On and After

THURSDAY, JANUARY 5!

We shall commence selling our entire stock of Merchandise at Cost, and Less than Cost. We shall sell right from the Cost Mark, without any reservation whatever.

THIS IS A CHANCE NEVER BEFORE KNOWN IN JANESVILLE.

To Buy good Goods at Less than their Value.

IN THE FIRST PLACE WE HAVE THE LARGEST AND FINEST STOCK OF GOODS IN THE INTERIOR OF THE STATE TO SELECT FROM. THIS IS NO HUMBUG, AS HAS BEEN PRACTICED FOR A NUMBER OF YEARS BY SMALL CONCERNS ABOUT THE TOWN TO SELL OUT A LOT OF OLD GOOD TO GET SOME EXCUSE THAT THEY ARE GOING OUT OF BUSINESS. THE BUSINESS OF OUR FIRM WILL POSITIVELY BE CLOSED MARCH 1ST.

ALL PERSONS INDEBTED TO US ARE

respectfully requested to call and settle soon, as we wish to get the business of our firm closed as soon as possible.

Smith & Bostwick.
